

# ASIA POWER FORUM

# INVITATION

The third annual Asia Power Forum will take place on Friday 12 April 2019 at the Fullerton Hotel, Singapore.

The Asia Power Forum was founded to serve the Asian insurance and reinsurance markets involved in the power generation sector. It is aimed at insurance market professionals; including insurers/reinsurers, brokers, and their power sector clients, as well as technical experts.

This specialist full-day conference, which achieved a capacity/sell-out attendance in 2017 and 2018, focuses on relevant power sector themes, targeted both at those new to the sector alongside seasoned veterans. There will be a mixture of topical presentations on contemporary technological developments and issues, industry challenges and pressures, insurance market conditions, and claims issues. This conference will also provide appropriate networking opportunities.

New for 2019, we will include a half-day primer session on the afternoon of 11 April covering a range of introductory topics for interested professionals who are new to the power insurance market. With every paid registration for Asia Power Forum, your company is entitled to apply for a space at the free primer session (either the person registered or a colleague). Spaces for the primer session are limited and will be allocated on a first-come, first-served basis.

Delegates from all aspects of the regional insurance market and power generation sector are welcome, as well as those from other international centres with an interest in the Asian Power Sector. We hope you can join us again and make this another engaging and successful event!

Please look out for regular updates on our website ([www.asiapowerforum.com](http://www.asiapowerforum.com)) and social media platforms ([facebook.com/asiapowerforum](https://facebook.com/asiapowerforum), [twitter.com/AsiaPowerForum](https://twitter.com/AsiaPowerForum)).
