

ASIA POWER FORUM

INVITATION

The 4th annual Asia Power Forum will take place on
Thursday 15 September 2022 at the Fullerton Hotel, Singapore.

The Asia Power Forum was founded to serve the Asian insurance and reinsurance markets involved in the power generation sector, including:

- Insurers/Reinsurers;
- Brokers, and their power sector clients;
- Loss Adjusters; and
- Engineers and technical consultants.

This specialist full-day conference achieved a capacity/sell-out attendance for each event since 2017, focusing on relevant power sector themes targeting seasoned veterans and new entrants to the sector.

There will be a mixture of topical presentations on:

- Contemporary technological developments and issues; and
- Industry challenges and pressures, insurance market conditions, and claims issues.

The conference will also provide networking opportunities.

In 2019, a half-day primer session was introduced the day before the main event, covering a range of introductory topics for interested professionals who are new to the power insurance market.

We received a lot of positive feedback and we are pleased to again host a primer session in 2022.

With every paid registration for Asia Power Forum, your company is entitled to apply for a space at the free primer session (either the person registered or a colleague). Spaces for the primer session are limited and will be allocated on a first-come, first-served basis.

Delegates from all aspects of the regional insurance market and power generation sector are welcome, as well as those from other international centres with an interest in the Asian Power Sector. We hope you can join us again and make this another engaging and successful event!

Please look out for regular updates on our website (www.asiapowerforum.com) and social media platforms (facebook.com/asiapowerforum, twitter.com/AsiaPowerForum).
